

THE FESTIVAL EXPERIENCE

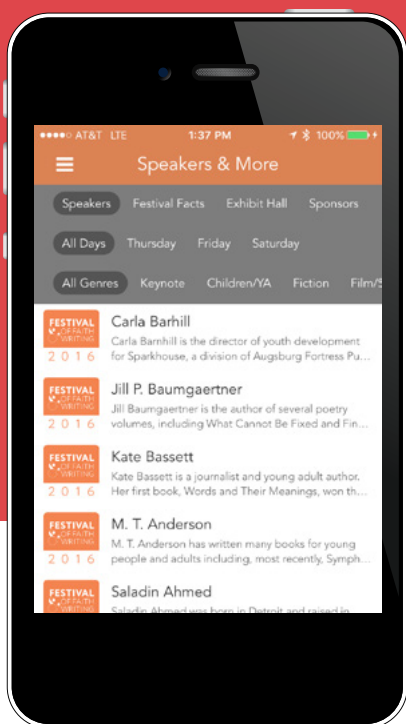

The Festival of Faith & Writing is a celebration of books and big questions that spans days, acres, and genres, with a little something for everyone: poetry readings, author interviews, workshops focused on craft, solo lectures, concerts, plays, an open mic, panels about the writing life, small group discussions, book signings, an exhibit hall full of publishers and journals, and more. There are even places on campus to get away from the party and enjoy a bit of peace and quiet.

Throughout the program and in our app you'll see icons that signify the options available to you during each hour of the Festival day.
